

THURSDAY 10th DECEMBER 2015

31 Forward Auctioneer: Gwilym Richards Sale at 11 am

The continual reductions in milk price combined with the delayed basic farm payments for virtually all resulted in the most difficult trade of the year.

Prices were down £200 to £300 on last month with the best calved heifers selling to £1,365, cows to £945 and bulling heifers to £525.

Let us hope that 2016 will see an improvement in milk price and prompter support payments.
