143 DAIRY CATTLE

ELLENHALL GRANGE FARM HERD SALE

Auctioneer: Jason Brown (07774 816384)

TOP PRICE OF £2,500

Market Drayton Dairy Sales proved again that the only way to sell dairy stock at present is under the hammer!!

What a trade!! A racing car can do 0 - 100mph in seconds, well this trade went from 0 - 100mph in just seconds!! And the foot never came off the gas until the sale was over.

Thank you to the Heath Family for their kind instructions to sell their herd for them and to the enormous ringside of buyers.

The sale consisted of mainly third to sixth calved cows and this flying herd was averaging 8,300 litres.

The headliner today was Lot 1073 Nordens Jethro Gold back in calf for October (4th calf) giving 37kgs daily and sold for £2,500.

Lot 1014 Tiptoe Yamaska Lavender made her second trip to Market Drayton, this time realising the second top price of £2,080. Also at the same money was Lot 1059 a commercial 2nd calved cow due in September.

In all, thirteen cows made £1,800 to £2,500.

Older cows having had five to six calves were highly sought after and most cruised past £1,500 to a top of £1,850.

Only four cows made less than £1,000.

Hereford stock bulls topped at £1,950.

143 cows (including faults) averaged £1,475.
