£1,750 TOP PRICE FOR SPRING CALVED GRAZING HERD

The dispersal sale of the commercial herd of chiefly Spring calved grazing British Friesians and Jersey crossbreds for Howard Coy of Melton Mowbray, Leicestershire met a very fast trade from a packed Drayton ringside with many destined for the Welsh Borders and Carmarthenshire.

Top price was £1,750 for a British Friesian fifth calver, a third calver British Friesian made £1,650 and a seventh calver British Friesian sold for £1,580.

A notable feature was the longevity of these cattle with 52% of the cattle sold having had six calves or more with the oldest being a tenth calver.

The sale of the herd was completed in exactly three hours with each individual offering taking less than a minute to be sold.

Averages:

34 heifers (including faults) £1,006

172 cows (all in) £955
